PROFILE

Computer Science graduate with 3+ years of Unity game development expertise. Skilled in gameplay mechanics, animation systems, physics integration, and performance optimization across Android, iOS, Windows, and Mac platforms. Passionate about crafting engaging, high-quality 2D interactive experiences with clean, well-documented C# code.

EXPERIENCE

Unity Game Developer

MAY 2023 — PRESENT

@ [Vihaa Infotech](#) · Full-time

- > Developed and implemented new game modes to enhance user engagement and gameplay experience.
- > Designed and updated game UIs ensuring intuitive, visually appealing player interactions.
- > Managed cross-platform submissions for Android, iOS, Windows & Mac with full compliance.
- > Coordinated performance patches improving game stability and increasing player retention.

Full-Stack Java Developer Intern

12 MONTHS

@ [Code Planet Technologies](#) · Internship

- > Built RESTful CRUD APIs for contact management using Java & Spring Boot.
- > Designed responsive UI for home and contact pages with HTML, CSS, JavaScript & React.
- > Collaborated in a 5-member team to deliver Contactoo — a full-stack smart contact manager.
- > Optimized MySQL database operations for efficient contact storage and retrieval.
