Work Experience

May 2023 - Present

Unity Game Developer

Vihaa Infotech

- Develop and implement new game modes to enhance user engagement and gameplay experience.

- Design and update game user interfaces (UI) to ensure intuitive and visually appealing interaction.

- Manage cross-platform game submissions across Android, iOS, Windows, and Mac, ensuring compliance with platform guidelines.

- Coordinate updates and patches to improve game performance and resolve issues, resulting in increased player retention.

Internship

12 Months

Contactoo

Code Planet Technologies

- Developed and maintained multiple backend RESTful APIs for contact management functions, including adding, displaying, deleting, and updating contacts, enhancing system reliability and performance.

- Designed and implemented responsive user interfaces for the home page and add contact page using HTML, CSS, JavaScript, and React, improving user experience and engagement.

- Collaborated within a cross-functional team of 5 members, utilizing technologies such as Java, Spring Boot, React, and MySQL to deliver a fully integrated smart contact management solution.

- Streamlined contact-centric database operations to efficiently store and retrieve contact information, supporting seamless tracking of communication activities linked to contacts.
